

Diagnostic Centre Central Hospital Kristianstad

**Inga Svensson
Chief Physician
181116**

**Diagnostic Centre in Central Hospital Kristianstad
opened October 1st, 2012
- a project in collaboration between Region Skåne and RCC Syd**

*for early diagnosis of cancer
or other serious disease*

I don't know
what she
suffers from
but I think she
is ill

Serious Unspecific Symptom

can be a sign of cancer or other serious disease

- New severe and unexplained tiredness
- Involuntary weight loss > 5 kg
- New atypical and unexplained pain/joint pain
- Unclear prolonged fever
- And/or pathological laboratory values without explanation
- *Suspicion of metastatic disease* with unknown primary tumour

Results of the study

- 290 patients
- 22% cancer
- 64% other disease
- 14% healthy

What is good with DC

- Outpatient examination
- Time for the patient
- Several examinations same day
- Palliative actions parallel to examination
- New experiences
- Tutorial
- High degree of satisfaction

Challenges

- Right Staff
- Right Patient
- In Right Time

Thank you for your attention!
